Datanet ISO Diary

by Natasha Ginn, Quality and Projects Manager

July 2011

Datanet is currently in the process of becoming both ISO 9001 Quality Management System and ISO 27001 Information Security Management System certified, with a target for certification by February 2012!!

Following some very detailed research over the last four months, we have selected Ultima Risk Management to help us achieve this with BSI as our external auditors.

This is an exciting time and we have kicked off with our awareness workshops on 12th July, followed by further process workshops on the 13th, 14th, 19th and 21st July. This is just the start and over the next 6 months we will see increased activity to document and improve our existing processes.

Process Workshop 14th July 2011

Exercise to identify all processes and how they flow from one department to another.
