

Datanet ISO Diary

by Natasha Ginn, Quality and Projects Manager

November – December 2011

The festive season is fast approaching!

It's still all systems go at Datanet as we work hard on implementing more efficient operational systems and getting our Business Management System (BMS) ready. The external auditors will be carrying out the certification assessments in January and February 2012.

An internal auditing team has been appointed and I have attended the BSI ISO 27001 Internal Auditors training course. The first internal audit has taken place and results of this have identified further areas for improvement. The system works!

Our first management review meeting was a success with reviews on KPI's and documentation within the BMS. The next review is scheduled for 20th December.

So everything is coming together although we still have a long way to go and with continuous improvement it is never ending!

I will sign off now but I would like to take this opportunity to wish you a very merry Christmas and a happy New Year.
