- ✓ Fibre and Ethernet private circuits anywhere in the UK
- ✓ Business Broadband, FTTC & FTTP anywhere in the UK
- ✓ SDWAN next generation smart self-healing and self-optimising networks
- ✓ Next Generation Firewalls providing UTM defence from sophisticated cyber attacks

M3 Customer Testimonial

We found Datanet very knowledgeable and helpful and particularly understood our problems and provided the right adaptable and flexible hosting solution. The Gb circuits were a particular bonus bringing the data centre right into our network, we are very fortunate to have the Datanet data centre only a few miles away.
