YOUR COMPLETE IT PARTNER

About Rejuvenate IT
Rejuvenate IT do more than just fix computers - they empower businesses with seamless, high-performance IT solutions. As a full-service technology agency, Rejuvenate IT provide expert IT support, managed services, and telecom solutions to SMEs across the South West and beyond. Their team of skilled technicians are always on hand to resolve software and hardware issues swiftly. *"At Rejuvenate IT, we don't just support technology—we help businesses thrive."* Rejuvenate IT website: https://www.rejuvenate.it/

The Challenge: Rejuvenate first approached Datanet in 2020 with a requirement for a Third Rack solution. Impressed by Datanet's infrastructure, reliability, and customer-focused approach, they chose to partner with us and officially came on board in October 2020. As Rejuvenate's business evolved and their hosting needs expanded, they approached Datanet in March 2022 seeking additional space to accommodate their growing infrastructure.

Datanet Solution: Datanet were able to offer an Ultra Full Rack at our new state-of-the-art data centre facility located within ARK, Farnborough. This high-capacity rack provided the necessary space, power, and connectivity to accommodate their growing demands and future-proof their hosting environment. To ensure a seamless transition, Datanet recommended Sunspeed, a specialist in secure IT relocation services. Thanks to their meticulous planning and execution, Rejuvenate's critical equipment was swiftly and safely transported to the new facility. The combined expertise of Datanet and Sunspeed ensured minimal disruption and a highly efficient move, setting the stage for enhanced performance, reliability, and scalability in their new home.

Requirements and Solution Summary:

- Ultra Full Rack 47U Rack x 800 wide x 1200 deep
- Dual 32A power feeds as standard together with dual 10Gb Internet feeds
- Data centre with excellent sustainability credentials designed in
- Government 'official' security facility with 24x7 security on site and ISO27001 certified
- 24x7 access for Rejuvenate engineers with workshop and welfare facilities included
- Helpful, friendly, accommodating, reliable people on-site to help
- Great value with many extras included, interconnects, block of IP's, remote hands etc

Feedback from Martin Yelland, Technical Director - *"Working with the Datanet team over the last five years has been a genuinely great experience. They have proven to be a fantastic partner - reliable, responsive, and always willing to share their expertise."*
